

VI.5.3D-MODSACUN PROGRAM FCST HCL TECHNIQUE MODSACUN

Purpose

Technique MODSACUN sets whether English or metric units are used for input to the MOD commands which change parameters or carryover for a soil moisture accounting Operation.

Valid values are NO (0), YES (1) and 2.

If MODSACUN is NO (0) then English units are used.

If MODSACUN is YES (1) then metric units are used.

If MODSACUN is 2 then the units are obtained from Technique METRIC. The Global default value is 2.

This Technique is Universal.

Form of Input

MODSACUN(integer)

where integer specifies whether the units are:

0 = English

1 = metric

2 = obtained from Technique METRIC

Example

MODSACUN(0)

English units will be used for input to the MOD commands which change parameters or carryover for a soil moisture accounting Operation.
